

Exposing Pig Butchering Scam

written by Mert SARICA | 1 March 2023

Over the years, as I have been targeted sometimes directly (LinkedIn Scammers, Sponsored Scamming) and sometimes indirectly (Who Viewed My Profile?) by scammers, I have made it my duty to write about these attempts in blog posts and warn those around me about them. At times, I have even received messages about scams from my spouse, friends, and close ones and have tried to write about them (Instagram Scammers) whenever I get the chance. And now, I am here again with a new scam attempt to expose.

As I announced through my Twitter account in June 2022, this attempt started with a message from a protected Twitter account named Anna on June 14, 2022. In this message, Anna started the conversation by talking about how she hasn't seen me in a long time. After learning my name (Mark *fake*), where I live (a Belgian living in Turkey *fake*), and what I do (CFO of a FinTech company *fake*), the topic shifted to where I invest my money and the loss of value of Bitcoin cryptocurrency at that time.

This is a blurred screenshot of the same profile page. It shows the navigation menu on the left, the profile header with the name 'Anna' and bio, and the 'These Tweets are protected' message. The right side of the page shows a 'You might like' section with user suggestions and a 'Trends for you' section with various trending topics.

Anna

Finance is usually very sensitive to numbers. I guess you must have been exposed to cryptocurrency or stock investments.

Jun 14, 2022, 2:17 PM

Yes, I keep some amount of bitcoin and altcoins in my digital wallet. While bitcoin's price drops recently, I go on investing more coins for my bucket.

Jun 14, 2022, 2:20 PM

It seems that you invest in long-term holding.

Jun 14, 2022, 2:23 PM

Yes, I am a hodler

Jun 14, 2022, 2:23 PM

Yes, Bitcoin has been falling recently.

Jun 14, 2022, 2:24 PM

Although I invest in cryptocurrencies, I don't make long-term investments. As you know, the cryptocurrency market has been very unstable in recent years, and the risk of choosing any type of currency has also increased. I only do short-term bitcoin trading for 30 seconds, and get the data calculated by the head and shoulder formula and Kelly formula. And seize a good trading node and buy the ups and downs of Bitcoin within 30 seconds, so as to obtain a stable profit.

Jun 14, 2022, 2:26 PM

I took a break from the conversation and decided to find out who the photo on

Anna's profile really belonged to, as I suspected it was fake. To do this, I used the Visual Search feature of the Yandex search engine and discovered that the profile photo belonged to a Chinese person named Shasha Zhao. When I looked at the photos shared on Shasha's profile, I found the exact photo on Anna's profile.

The image shows two screenshots from a web browser. The top screenshot is a Yandex search results page. The search bar contains the text "Uploaded image x". The search results are displayed in a list format. The first result is for an Instagram profile named "COSMICHEСКИЕ БРОВИ ИЗРАИЛЬ (@alina_beautymua)". The second result is for "Светлана Королева, Быково, Россия" with a link to "liveuserpage.com". The third result is for an Instagram profile named "@zhaosasa" with a red arrow pointing to it. The fourth result is another Instagram profile named "@zhaosasa" with a link to "socialgirls.im". The fifth result is for a Twitter profile named "Хэрлэнзаяя (@kherlenzaya)".

The bottom screenshot is an Instagram profile page for the user "zhaosasa". The profile shows a grid of six photos. The first photo is a woman in a white dress standing in front of a graffiti wall. The second photo is a close-up of a woman's face. The third photo is a woman in a green dress. The fourth photo is a tall tower against a sunset sky. The fifth photo is a woman in a bikini sitting on a stone ledge. The sixth photo is a woman in a white dress standing in front of a graffiti wall.

Anna, who initially claimed to live in Singapore and founder of a garment import and export trading company, asked to continue the conversation on WhatsApp and shared a US phone number (+19295654212) with me. When I questioned her about using a US phone number, she changed her story, saying she lived in the US for business reasons. To pique my interest, she then claimed to have made a profit of around \$715,000 from a crypto investment of \$300,000. I informed her that I was considering investing \$500,000 to see her tactics for quickly making a profit.

All the deals I made this month

I only used \$300,000 as the principal.

Jun 18, 2022, 10:17 PM

No, I ll move back to Belgium next month.

Jun 19, 2022, 12:59 AM

I have 500.000 USD to invest but I go on keeping eye on Bitcoin's price

Jun 19, 2022, 11:00 AM

After sharing that I consider her to be a very good investor and want to invest with her, she told me that I need to enter the MonexCrypto platform

for short-term investments. She also shared that I need to visit the [https://app\[.\]monexcrypto\[.\]net](https://app[.]monexcrypto[.]net) address, download the mobile application, and register.

The screenshot shows a WhatsApp chat interface with a dark background. At the top left is a circular profile picture of a woman with the name "Anna" and a lock icon. At the top right is an information icon. The chat contains several messages in white text bubbles on a dark background, and a response in a blue bubble at the bottom right.

Anna  

Yes, after the purchase is completed, transfer it to the short-term exchange for operation.

Jun 24, 2022, 4:54 PM

You also need a short-term exchange.

app.monexcrypto.net

Jun 24, 2022, 4:57 PM

Here is a link to the short-term exchange I am using.

You click the link to download and register an account of your own.

If you encounter any problems, give me screenshots and I will teach you.

Jun 24, 2022, 5:00 PM

Ok I will and let you know

I went to the website to download the mobile application and when I looked at the source code of the webpage, I found out that there was both an Android (update.apk) and an iOS version of the app. After uploading the Android app to VirusTotal and Pithus, a mobile threat intelligence platform, and quickly checking the somewhat suspicious results, I decided to thoroughly examine the version developed for the iOS operating system.

I examined the app.mobileconfig XML file, consisting of payloads that load settings and authorization information onto Apple devices. When I ran the file in the Simulator application located in Xcode, I learned that it is a Web Clip (WebClip) that opens the <https://www.monexcrypto.net> web page and is signed by a developer named Gang Dai.

Web clips: A web clip is an icon on the device Home screen that links to a website or URL. Web clips can optionally launch full-screen web apps and can run offline using HTML5 local storage. Configuration profiles can include web clips that use a custom title and icon, and can optionally be nonremovable. Web clips can point students to specific websites for educational purposes. For more information about configuring web clips on a device, see WebClip profile page in Apple Developer documentation.

When I tried to register on the website, I was expected to enter an Organization Code in the registration form. The purpose of placing such a code in the form by scammers was probably to prevent cyber security researchers and/or cyber security vendors from detecting this page and collecting information, and they had been successful until now. Whenever I told Anna that I was having issues in the app installation, she kindly did everything she could to help me with screenshots. So I decided to ask Anna for help one more time in finding out the organization code. :)

Anna

I have installed it.

Jun 26, 2022, 6:21 AM

I can not able to register as it asks me an organization code which I have no idea what it is

Jun 26, 2022, 7:18 AM

我找找我之前用的你可不可以用

Jun 26, 2022, 4:36 PM

Try the 768919 I used.

Jun 26, 2022, 4:39 PM

This is the organization code I used.

You try

Jun 26, 2022, 4:40 PM

It worked. Now what is next ? :)

Jun 27, 2022, 12:37 AM

Next, buy and transfer.

When I successfully registered and started browsing the website with Web Clip, I saw pages and menus about real-time market tracking, depositing money into the wallet, withdrawal, etc.

On June 28, 2022, Anna realized she was very close to scamming me, began directing me on how to send cryptocurrency (USDT) via a cryptocurrency exchange named Binance to my wallet.

Anna

If you are here by yourself you have coins, you don't need to buy them. You just need to convert them into USDT and transfer them.

Jun 28, 2022, 12:43 PM

Direct purchase is also possible, but then it needs to be purchased by wire transfer. The minimum purchase amount is \$3,000, and it will be more convenient to purchase and transfer with the traditional exchange.

I usually do the same thing, and then transfer back to the traditional exchange after the transaction.

Jun 28, 2022, 12:49 PM

Where is my USDT wallet address I can't find it.

Jun 28, 2022, 1:31 PM

Give me a screenshot.

I'll show you how to find him.

Jun 28, 2022, 1:45 PM

Just give me the screenshot of the main page of the exchange.

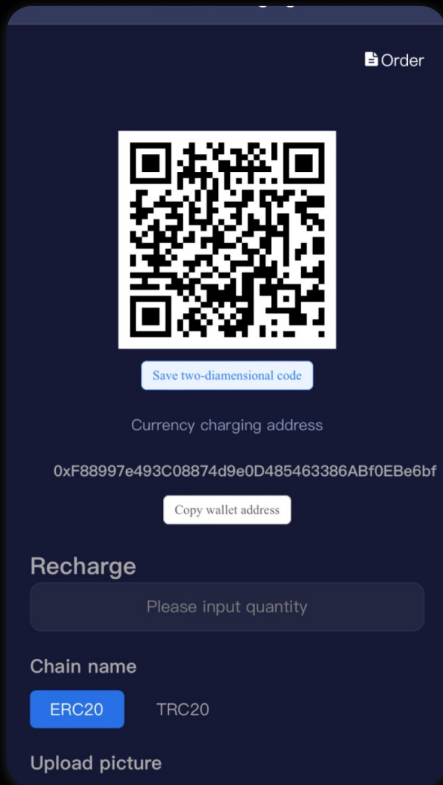

Anna

Click on it and give me a screenshot.

I'll teach you the next step

Jun 28, 2022, 2:08 PM

Jun 28, 2022, 2:21 PM

Copy wallet address

Jun 28, 2022, 2:26 PM

Got it.

Jun 28, 2022, 2:27 PM

Then open your Binanc screenshot and send it to me, I will teach you how to transfer the injected funds

How much money do you plan to start investing?

Jun 28, 2022, 2:29 PM

As I began to wonder which country Anna was really communicating with me from, I started to think about what I could do to find out Anna's IP address. I guessed that Anna, who had never suspected me despite the "Cyber Security Researcher" background image on my Twitter profile, continued to carry on her plan to trap me for 15 days, had no concern about Operations Security (OPSEC). For this reason, I decided to share the web addresses of the screenshots I hosted on my website with Anna by using the Bitly URL shortening service in order to obtain her IP address.

Because Anna did not hesitate to click on the three bit.ly addresses I shared, with the help of the SOCRadar's IOC Radar I learned that she was communicating with me from the 45.204.66.140 IP address located in Hong Kong.

Anna

That is a bit complicated, let me share the screenshots with you.

Jul 2, 2022, 1:15 PM

okay

Let's start with the transfer.

Jul 2, 2022, 1:18 PM

You openbinanceGive me a screenshot of the homepage and I'll tell you what you should do.

Jul 2, 2022, 1:20 PM

is this the address of USDT wallet that I have to send from Binance ? [bit.ly/](#)

Jul 2, 2022, 1:29 PM

Yes

Jul 2, 2022, 1:34 PM

After copying, open Binance to find the transfer, then paste the wallet address you copied and transfer it.

After successful transfer, go back to the short-term exchange and upload the certificate of successful transfer.

You can start trading.

Jul 2, 2022, 1:37 PM

If you have any questions, please take screenshots and ask me.

Jul 2, 2022, 1:38 PM

After the transfer, I ll see the amount of the USDT on this area, is that correct ? [bit.ly/](#)

Jul 2, 2022, 1:43 PM

Yes

Jul 2, 2022, 1:44 PM

If you want to finish it in a few minutes

You can take a screenshot for me.

After all, it's your first time, and I'm afraid you'll make a mistake during the transfer.

Jul 2, 2022, 1:48 PM

At Binance, this is where I should buy USDT ? [bit.ly/](#)

Jul 2, 2022, 1:55 PM

:o)

Why is your screenshot like this?

As I continued to browse the MonexCrypto website, I decided to check if the Bitcoin and Ethereum cryptocurrency wallet addresses were unique to me or same for everyone who joined the platform. If these wallet addresses belong to scammers and they show their own addresses as wallet addresses to each person who joins the platform (victim), they can easily steal the cryptocurrency from their victims with ease. Based on the research I conducted on this matter, I discovered that;

1. On June 28, 2022, when I checked my Bitcoin wallet address (3QX2Cсна3FEbXD9PxhgEXL36qAfYXWSwQU) on the Blockchain.com website, it was seen that this wallet was created on June 6, 2022 and until September 29, 2022, \$55,618.73 worth of Bitcoin was transferred to this wallet and then withdrawn.
2. On the same date, when I checked my Ethereum wallet address (0xF88997e493C08874d9e0D485463386ABf0EBE6bf) at the same place, it was seen that this wallet was also created on June 26, 2022 and until November 23, 2022, ~\$839.000 worth of Ethereum and USDT was transferred to this wallet.
3. Again, on the same date, this time checking my USDC wallet address (0xcfd9df006ec9f4af5bf34a6f71af41655fb7d4167), it was seen that this wallet was created on June 17, 2022 and until August 16, 2022, ~\$46.000 worth of Ethereum and USDT was transferred to this wallet.

Disclaimer: I would like to remind that I am not an IRS agent or a Blockchain expert capable of tracing end-to-end cryptocurrency transfers as described in the book Tracers in the Dark: The Global Hunt for the Crime Lords of Cryptocurrency in case of any errors. :)

From the date I registered on the MonexCrypto website, June 26, 2022, to January 29, 2023, I roughly checked my wallet addresses 5 times by logging into the MonexCrypto website, and I noticed that they changed every time. Based on this information, the wallet addresses were not individually produced, but were the scammers' own wallet addresses, and they changed these addresses at certain intervals. When I listed and gathered the wallet addresses and the money transfers made to these wallets, I realized that the scammers had stolen approximately 3 million dollars worth of cryptocurrency, to the best of my estimation.

Of course, while I was trying to unmask Anna on July 18th, 2022, the FBI issued a warning against fraudulent attempts made through fake crypto exchanges/investment applications like MonexCrypto. According to this warning, approximately 42.7 million dollars worth of crypto had been stolen from 244 people worldwide. I had already learned how 3 million dollars were stolen. :)

In 2021, the FBI's Internet Crime Complaint Center received more than 4,300 submissions related to pig butchering scams, totaling more than \$429 million in losses. And at the end of November, the US Department of Justice announced that it had seized seven domain names used in pig butchering scams in 2022. (Source: Wired)

Anna, who exhausted all means of persuasion to deceive me from June 14th to July 6th, 2022, she started sending messages full of complaints on July 6th. I put an end to our conversation with the bad guy smile by informing Anna of the FBI's warning on August 1st, 2022. :)

Anna

Haven't you finished your authentication yet?

Jul 5, 2022, 12:41 PM

Not yet. :/

I am on vacation, do it on next week.

Jul 6, 2022, 1:50 AM

awfully sorry

I can't understand.

Jul 6, 2022, 7:33 AM

Why do people always have the habit of procrastinating about such little things? It's justIt's just verification. You can be ready.

I can't understand why things that can be done in a few minutes should be delayed.

Jul 6, 2022, 7:35 AM

What is wrong 1 week ?

Jul 6, 2022, 7:35 AM

Anna

It's nothing

Jul 6, 2022, 11:30 AM

I just don't understand why such simple things have to be delayed.

Isn't it best to do such a thing when you have a rest?

Sorry, Maybe it's because I don't like to procrastinate, and I can't understand such things.

People always like to put off the simplest things until the end.

Jul 6, 2022, 11:33 AM

Don't invest in cryptocurrency, I thought you weren't suitable for it. You can't even do such a simple thing well.

Enjoy your vacation, sir,

Jul 6, 2022, 11:35 AM

After a period of conversation, I feel that you are not suitable for investing in cryptocurrency. You always procrastinate when you can't even do such a simple thing well. I don't like people who procrastinate. Maybe

Anna

You can wait until next week. It's your right, but I'm not going to teach you. You didn't cherish it when I gave you the opportunity to learn.

Jul 6, 2022, 11:42 AM

Sorry to hear that

Jul 6, 2022, 2:30 PM

You can study it yourself.

Or find someone else to teach you.

I don't like people who procrastinate, because it is a trivial matter.

Jul 6, 2022, 2:33 PM

I have no reason to wait for you. I have given you many chances.

Jul 6, 2022, 2:49 PM

How do you do ?

Jul 22, 2022, 10:28 AM

hello

What's the matter?

Aug 1, 2022, 11:58 AM

FBI warns of fake cryptocurrency apps used to defraud investors

The FBI warned that cybercriminals are creating and u...

Have you read this article ?

Aug 1, 2022, 2:53 PM

What is this?

Aug 8, 2022, 9:10 PM

Read and tell me that is it familiar to you ? ;)

Aug 9, 2022, 12:16 AM

never heard

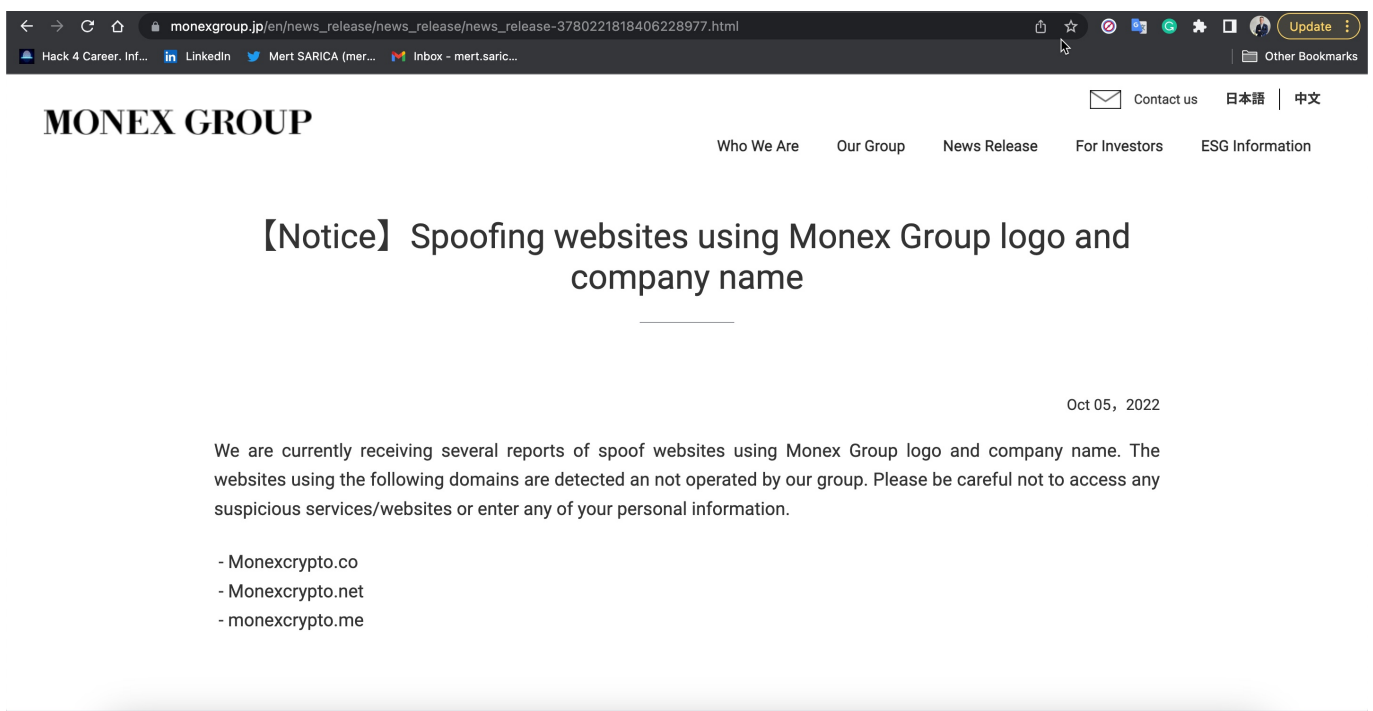

Aug 9, 2022, 12:41 PM

It seems that Anna continued to catch new victims in her web without slowing down in the following months and was successful, as some user passwords were also stolen when they entered the monexcrypto.net site on September 5th, 2022, according to information detected as stolen by a malicious software (Stealer) on the SOCRadar Cyber Threat Intelligence platform.

By October, the Monex Group issued a warning that two more websites, starting with the monexcrypto.net website, were using the group logos without permission.

As a result, we have learned in detail how Anna and her scammer friends carried out the Pig Butchering Scam, a well-designed fraudulent scheme, and how they made millions of dollars in loot, from the applications downloaded not only from 3rd party websites but also from the Apple App Store and Google Play Store.

Pig Butchering scam is named after the practice of fattening a pig for slaughter. In this case, scammers build a relationship with a victim online before convincing them to send money or invest in high yield crypto-currency accounts.

I strongly request you to share this article with your friends, loved ones to raise security awareness. Hope to see you in the following articles.
